Y6Sigma Solutions Ltd. and Shared Services & Outsourcing Network (SSON)

A new alliance has been established between Y6Sigma Solutions Ltd. and Shared Services & Outsourcing Network (SSON).

According to Davide Laghi, Founder & Director of Y6Sigma Solutions Ltd., "Increased support from SSON of Y6Sigma comes at a very crucial time, as both companies strive to strengthen their key strategic initiatives in the SSO and BPO market space, and will enable Y6Sigma and SSON to leverage a broader approach to their company's overall Strategic, Market Positioning, and Business Development Objectives."

Y6Sigma Goals & Objectives for this new relationship:

- To connect with more Global and Specialist Solution Providers within the Y6Sigma Key Strategic Areas
- To consolidate our relationship with SSON and provide them with leading edge support in the delivery and facilitation of Shared Services Communications and Conferences
- To increase and raise new opportunities for Y6Sigma and SSON to contribute to the Shared Services Community knowledge base and related communication campaigns (i.e. web, magazine and et-al)
- To improve opportunities for Y6Sigma to inform the knowledge and understanding of the Global Shared Services and BPO Markets; and therefore, leverage Y6Sigma's strategic planning, market positioning and business development initiatives

About Y6Sigma Solutions Ltd.

A Solutions Integrator operating in the field of Shared Service Organisations (SSO) and Business Process Outsourcing (BPO), Y6Sigma® is an innovative approach that combines Organisational Culture Change Initiatives with the implementation of simple and effective Performance Measurement frameworks to deliver Information Technology based preventative control solutions and simultaneously achieve process quality, cost and compliance advantages.

With over a decade of hands-on experience, we have developed a unique methodology called the Model of Operational Excellence (MOPEX®), which contains strong elements of Lean Six Sigma (LSS) verticalised for the Shared Services and BPO Industries.

The MOPEX® methodology is a sustainable Continuous Process Improvement approach built around three integrated elements:

- People & Cultural Transformation (Motivate Change)
- Performance Measurement and LSS (Understand Change)

- Information Technology (Implement Change)

IT Vertical Solutions for the SS & BPO Industries include our unique concept of SOX Sigma® – System Preventative Control Solutions to simultaneously tackle both Process Improvement and Governance requirements.

Y6Sigma operates through a global network of trusted partners and alliances in the field of People, Performance Measurement and Information Technology Solutions to provide Shared Services Organisations (SSO) and Business Process Outsourcing (BPO) Operators with a holistic solution to their Start-up and Continuous Improvement Challenges.

About Shared Services & Outsourcing Network (SSON)

SSON is a one stop shop for shared services and outsourcing professionals. It's the place to find the latest industry news and facilitates intelligent decision making by connecting members to industry experts and enabling them to collaborate with their peers. SSON editors and researchers bring together industry experts from all over the world and share their knowledge through conferences and seminars, the SSON website, regular e-newsletters, and our monthly magazine: Shared Services News.

Whether you are a seasoned industry solution provider or a new-to-market start-up, SSON offers you the opportunity to connect, collaborate and communicate.
